The year 1492 marked for Spain the arrival of Christopher Columbus in the New World. It was a voyage funded by Queen Isabella. Columbus's first voyage crossed the Atlantic and reached the Caribbean Islands, beginning the European exploration and the Spanish conquest of the Americas, although Columbus was sure that he had reached India and found a way to the Orient.

B) Рубрика

With the total area of 505,992 square km Spain is the world's 52nd largest country in the world and Europe's 4th largest country. Spain is a transcontinental country having territory in both Europe and Africa. In the west, Spain is bordered by Portugal; in the south, it is bordered by Gibraltar (a British overseas territory) and Morocco. Tenerife is the highest mountain peak in Spain.

C) Рубрика

In Spain we can see three main climatic zones. The Mediterranean climate is characterized by hot and dry summers, and it is dominant in the peninsula. The semi-arid dry climate can be found in the southeastern quarter of the country. The oceanic climate is in the northern quarter of the country. There winter and summer temperatures are influenced by the ocean.

D) Рубрика

The Spanish fauna is very diverse because of the geographical position of the Iberian peninsula between the Atlantic and the Mediterranean and between Africa and Eurasia. The vegetation of Spain is varied too because of several factors including the diversity of the relief and the climate. Spain includes different phytogeographic regions, each with its own floristic characteristics.

E) Рубрика

In 2017, Spain was the second most visited country in the world, recording 82 million tourists. Spain's geographic location, popular coastlines, diverse landscapes, history and culture together with excellent infrastructure has made the country's international tourist industry one of the largest in the world. Travel brings about 5% of the total income to the country.

Saving languages

Five hundred years ago, Europeans arrived at a new continent. They new cultures and languages to America. However, there were people living there who had their own cultures and languages. And so a terrible part of history began.

As more Europeans arrived, there was a fight for the land with the native American Indians. By the end of the nineteenth century, the Indian tribes were to reservations. By the end of the twentieth century more than half of the Native Americans in the US in cities. They gave up speaking their old tribal language and only used English. As a result, many Native American languages and with them their culture.

Some American Indian languages are used today but they are usually spoken by the older members of the tribes who still live on the reservations.

Weather and climate are the words that we often use when we talk to each other. Sometimes we don't understand that these are two different things. Weather is the state or conditions over a short period of time. Usually, it's a day or so. Climate is the typical conditions that we expect at a certain place at a certain time. While weather changes day to day, climate does not change for a much longer period.

Now there are a lot of factors that influence weather and climate. Human activities are changing both in many ways. Global warming is an example of climate change. As for weather, it is becoming more and more difficult to predict it. People must put a lot of effort to improve the situation. The future of our planet is in our hands, we should do our best to save it.
