### **Isaac Newton**

Newton, one of the greatest scientists of all times was born in 1642 in the little village in Lincolnshire, England. His father was a farmer and died before Newton was born. His mother was a clever woman whom he always loved.

After the school, Newton studied mathematics at Cambridge university and received his degree in 1665. Then the university was closed because of the danger of plague and Newton went home for eighteen months. It was most important period in his life when he made his three great discoveries — the discoveries of the differential calculus, of the nature of white light, and of the law of gravitation.

These discoveries are still important for the modern science. Newton had always been interested in the problems of light. Many people saw colors of a rainbow but only Newton showed, by his experiments, that white light consists of these colors.

It is interesting how he discovered the law gravitation. Once, as he sat at the garden, his attention was drawn by the fall of an apple. Many people saw such an usual thing before.

But it was Newton who asked himself a question: "Why does that apple fall perpendicularly to the ground? Why doesn't it go sideways or upwards?" The answer to this question was the theory of gravitation, discovered by Newton.

Newton died at the age of 84, and was buried in Westminster Abbey, where his monument stands today.

**Dialog A.**

- Hi, I thought I was late.
- The bell is gone. But Ms Morgan isn't here yet.
- That's a piece of luck.
- I thought I was going to be late too. I was looking for my mobile phone which turned out to be on the bottom of my bag. I always feel so nervous before tests.
- It's not only you. Have you managed to revise the vocabulary?
- As good as... Oh no! I forgot all my essay!

**Dialog B.**

- What are you doing Tommy?
- Writing an essay about mobile phones in our life. It seems like our French teacher can't do without our clumsy paragraphs full of mistakes.
- It's very good of her, I think. Writing essays regularly is very useful for learning the language.
- Yeah, probably.
- I hope you'll be through with your homework by 8. Mrs. Clock and Sandra are coming for dinner.
- That explains the delicious smell from the kitchen. Yes, I'll do my best. Now I'm motivated.

**Dialog C.**

- Who are you texting?
- A friend. She is still at school and I want her to find out about my test result.
- Are you heading home now?
- Yes. If we're lucky we will catch the 4'o'clock bus. I would really like to catch it or we'll get cold. It's so windy today.
- Look, there it is. It's a bit earlier today or my watches a bit slow.

**Dialog D.**

- Please, stop texting. You're distracting me!
- There is nothing to be distracted from, it's so boring! And if you went for the pop corn I would have left ages to go.
- But I like it! It's a classical psychological drama and I have to write an essay about it for my French course.
- Are you saying that I have to watch it for the very end? Then you buy me another bucket of the pop corn.
- Agreed. But turn off your mobile phone right now! Ok?
